Empowering Education through Swami Sivananda Memorial School

As part of our commitment to creating long-term social impact, Integris Medtech Limited collaborates with the Swami Sivananda Memorial Institute (SSMI) to support inclusive and quality education for underprivileged children in New Delhi.

The Swami Sivananda Memorial School, run by SSMI, provides free, holistic education to students from economically marginalized communities, with a focus on academic excellence, creative arts, life skills, and emotional well-being. The school also integrates essential support services such as healthcare access, nutrition programs, and counselling, ensuring a safe and nurturing learning environment for every child.

Through this initiative, Integris Medtech contributes towards enhancing educational infrastructure, improving access to learning tools and technology, investing in teacher training, and promoting strong community and parental engagement. Our support enables the school to continue fostering a culture of curiosity, creativity, and critical thinking, skills essential for the personal and professional growth of

each student.

This partnership underscores our belief that education is a powerful catalyst for social transformation and reaffirms our commitment to building an equitable and empowered future for the next generation.
