CERTIFICATE ON TRANSLATED VERSION OF MATERIAL SUBSIDIARY AUDITED FINANCIAL STATEMENTS

To,
The Board of Directors
Integris Medtech Limited ***(formerly known as Integris Medtech Private Limited and Integris Health Private Limited)***
1st Floor, Metro Tower LSC,
M.O.R Land, New Rajinder Nagar,
New Delhi -110060, India.

Translumina GmbH
Neue Rottenburger Straße 50
72379 Hechingen
Germany

Dear Ladies and Gentlemen,

Re: Proposed initial public offering of equity shares (the "Equity Shares") of Integris Medtech Limited (the "Company", and such initial public offering, the "Offer")

This certificate is issued in accordance with the terms of our engagement letter with the Company dated October 07, 2025.

We have verified the translated version of the audited standalone financial statements (the "Annexure") of **Translumina GmbH.** (the "Subsidiary Company") for the years ended March 31, 2024 and March 31, 2023 ("Financial Years"). These financial statements have been translated by the Company in Indian Rupee in accordance with Ind AS 21, 'The Effect of Changes in Foreign Currency Rates'. The work carried out by us is in accordance with the Standard on Related Services (SRS) 4400, "Engagements to Perform Agreed-upon Procedures regarding Financial Information" issued by the Institute of Chartered Accountants of India.

As required under Schedule VI Part A item no.(11)(I)(A)(ii)(b) of Securities and Exchange Board of India (Issue of Capital and Disclosure Requirements) Regulations, 2018, as amended ("SEBI ICDR Regulations"), the Company has prepared the translated version of the audited standalone financial statements contained in the Annexure attached to this certificate which is proposed to be uploaded on the website of the Company in connection with the Offer.

The preparation of the accompanying translated version of the audited standalone financial statements for the Financial Years is the responsibility of the management of the Company including the preparation and maintenance of all accounting and other relevant supporting records and documents. This responsibility includes the design, implementation and maintenance of internal control relevant to the preparation and presentation of the Annexure and applying an appropriate basis of preparation; and making estimates that are reasonable in the circumstances.

J. C. BHALLA & CO. Chartered Accountants

The management of the Company is also responsible for ensuring that the Annexure complies with all the relevant requirements of the SEBI Regulations inter alia Schedule VI Part A item no.(11)(I)(A)(ii)(b) of Securities and Exchange Board of India (Issue of Capital and Disclosure Requirements) Regulations, 2018, as amended ("SEBI ICDR Regulations") and requirement of IND AS 21.

Our Responsibility is to Examine that the financial statements have been translated by the Company in Indian Rupee in accordance with Ind AS 21, 'The Effect of Changes in Foreign Currency Rates'.

Accordingly, we have performed the following procedures in relation to the Annexure:

a. Obtained the Copy of Audited Financial Statements for the Financial Periods of the Subsidiary Company and auditors report thereon.
b. Compared the content of the Annexure from the Audited Financial Statements of the Subsidiary Company.
c. Verified the arithmetical accuracy of the information included in the Annexure.
d. Ensure that the translation has done in accordance with the IND AS 21.
e. Made necessary inquiries with the management of the Company and obtained relevant representations in respect of matters relating to the Annexure.

Based on our examination, we confirm that the information in this Annexure is true, fair, correct, accurate and there is no untrue statement or omission which would render the contents of this certificate misleading in its form or context.

We did not audit the standalone financial statements of **Translumina GmbH**. These financial statements have been audited by other audit firms, whose reports have been furnished to us by the Company.

These translated financials should not in any way be construed as a reissuance or re-dating of any of the previous audit reports, nor should these be construed as a new opinion on any of the audited standalone financial statements referred to herein.

These translated financials are intended solely for use of the management for uploading on website of **the Company** in connection with the Offer.

This certificate has been provided by us at the request of the Company and solely for the information of **Axis Capital Limited, Citigroup Global Markets India Private Limited, ICICI Securities Limited, IIFL Capital Services Limited,** (collectively referred to as the "Book Running Lead Managers" or the "**BRLMs**") and **Board of Directors of the Company** to assist them in conducting their due-diligence and documenting their investigations of the affairs of the Company in connection with the proposed Offer. This certificate may be relied on by the BRLMs, their affiliates and legal counsel in relation to the Offer.

This certificate is not intended for general circulation or publication and is not to be reproduced or used for any other purpose without our prior consent in writing, other than for the purpose stated above. We, however, hereby give consent for inclusion of our name and this information (in full or in part) in the Draft Red Herring Prospectus, Red Herring Prospectus and Prospectus proposed to be filed by the Company with the Securities and Exchange Board of India ("**SEBI**"), the stock exchanges where the Equity Shares of the Company are proposed to be listed (the "**Stock Exchanges**") with the Registrar of Companies ("**RoC**") and any other material used in connection with the Offer and submission of this

J C BHALLA & CO Chartered Accountants

certificate to SEBI, Stock Exchanges, or RoC in connection with the proposed Offer, as the case may be. Additionally, we hereby give our consent for the submission of this certificate to any other regulatory authority as may be required under applicable law in connection with the proposed Offer, as the case may be.

Yours Sincerely,

For J C Bhalla & Co.

Translumina GmbH
Summary of significant accounting policies and other explanatory information for the year ended 31 March 2024

1. Company overview

Translumina GmbH ('the Company') was incorporated on 23 November 2000 and is engaged in the business of manufacturing and marketing of coronary stents and related products.

2. Basis of preparation

(i) Statement of compliance with Indian Accounting Standard (Ind AS)

These special purpose financial statements of the Company consisting of Balance Sheet as at 31 March, 2024, Statement of Profit and Loss (including Other Comprehensive Income), the Statement of Cash Flows, the Statement of Changes in Equity for the year then ended, the Statement of Changes in Equity for the year then ended, and notes to the financial statements, including material accounting policy information and other explanatory information (together referred to as 'Financial Statements').
As required under Schedule VI Part A item no.(11)(I)(A)(ii)(b) of Securities and Exchange Board of India (Issue of Capital and Disclosure Requirements) Regulations, 2018, as amended ("SEBI ICDR Regulations"), the Company has prepared the translated version of the audited standalone financial statements which is proposed to be uploaded on the website of the Company in connection with the Offer. These financial statements have been prepared by the management in accordance with Indian Accounting Standards ('Ind AS') specified under Section 133 of the Companies Act, 2013 ('the Act') read with the Companies (Indian Accounting Standards) Rules, 2015 and other accounting principles generally accepted in India. These financial statements has been prepared under the historical cost convention on an accrual basis.

These financial statements have been translated by the Company into Indian Rupees in accordance with Ind AS 21 – The Effect of Changes in Foreign Currency Rates. The special purpose financial statements have been restated to Indian Rupees using an exchange rate of 1 Euro = ₹89.94 prevailing on the last day of the financial year for the balance sheet, and 1 Euro = ₹89.90 as the average rate for the profit and loss account. The functional currency of the Company is Euro.

(ii) Historical cost convention

The financial statements have been prepared on going concern basis in accordance with the accounting principles generally accepted in India. Further, the financial statements have been prepared on historical cost basis except for certain financial assets and financial liabilities which are measured at fair value.

(iii) Current versus non-current classification

All assets and liabilities have been classified as current or non-current as per the Company's operating cycle i.e. 12 months.

3. Summary of significant accounting policies

The financial statements have been prepared using the significant accounting policies and measurement bases summarised as below. These policies are applied consistently for all the periods presented in the financial statements, except where the Company has applied certain accounting policies and exemptions upon transition to Ind AS. Further, the figures in the financials has been rounded off to nearest lakh with two decimals. Hence the figures appearing as 0.00 are the figures rounded off to nearest decimal lakhs.

Translumina GmbH
Summary of significant accounting policies and other explanatory information for the year ended 31 March 2024

a) Property, plant and equipment

Recognition and initial measurement
Property, plant and equipment are stated at their cost of acquisition. The cost comprises purchase price, borrowing cost if capitalization criteria are met and directly attributable cost of bringing the asset to its working condition for the intended use. Any trade discount and rebates are deducted in arriving at the purchase price. Subsequent costs are included in the asset's carrying amount or recognised as a separate asset, as appropriate, only when it is probable that future economic benefits associated with the item will flow to the Company and the cost of the item can be measured reliably. All other repair and maintenance costs are recognised in statement of profit and loss.

Subsequent measurement (depreciation method, useful lives and residual value)
Property, plant and equipment are subsequently measured at cost less accumulated depreciation and impairment losses. Depreciation on property, plant and equipment is provided on the straight-line method. The estimated useful lives mentioned below are different from the useful lives specified for certain categories of these assets, where applicable, as per Companies Act. The estimated useful lives followed in respect of these assets are based on management's assessment and technical advice, taking into account factors such as nature of assets, the estimated usage of pattern of the assets, the operating conditions, the past history of replacement, anticipated technological changes and maintenance support etc.

Asset class	Useful life (in
Computers	3
Furniture and fixtures	5-13
Plant and equipment	3-15
Computer software	3-5
Other intangibles	3-12

Depreciation is calculated on pro rata basis from the date on which the asset is ready for use or till the date the asset is sold or disposed.

The residual values, useful lives and method of depreciation are reviewed at the end of each financial year.

De-recognition
An item of property, plant and equipment and any significant component initially recognised is derecognised upon disposal or when no future economic benefits are expected from its use or disposal. Any gain or loss arising on de-recognition of the asset (calculated as the difference between the net disposal proceeds and the carrying amount of the asset) is recognized in the statement of profit and loss, when the asset is de-recognised.

b) Capital work-in-progress

Capital work-in-progress are carried at cost, comprising direct cost and related incidental expenses acquire property, plant and equipment. Assets which are not ready to be intended use are also shown under capital work-in-progress.

c) Intangible assets

Recognition and initial measurement
Intangible assets are stated at their cost of acquisition. The cost comprises purchase price, borrowing cost if capitalization criteria are met and directly attributable cost of bringing the asset to its working condition for the intended use.

Subsequent measurement (amortisation method, useful lives and residual value)
Intangible assets are amortised as per useful lives, from the date when the assets are available for use. The estimated useful life (amortisation period) of the intangible assets is arrived basis the expected pattern of consumption of economic benefits and is reviewed at the end of each financial year and the amortisation period is revised to reflect the changed pattern, if any.

De-recognition
Intangible asset is de-recognised upon disposal or when no future economic benefits are expected from its use or disposal. Any gain or loss arising on de-recognition of the asset (calculated as the difference between the net disposal proceeds and the carrying amount of the asset) is recognized in the statement of profit and loss, when the asset is derecognised.

d) **Right of use assets and lease liabilities**

For any new contracts entered on or after 1 April 2019, the Company considers whether a contract is, or contains a lease. A lease is defined as 'a contract, or part of a contract, that conveys the right to use an asset (the underlying asset) for a period of time in exchange for consideration'.

Classification of leases
The Company enters into leasing arrangements for various assets. The assessment of the lease is based on several factors, including, but not limited to, transfer of ownership of leased asset at end of lease term, lessee's option to extend/purchase etc.

i) Right of use assets
Recognition and initial measurement
At lease commencement date, the Company recognises a right-of-use asset and a lease liability on the balance sheet. The right-of-use asset is measured at cost, which is made up of the initial measurement of the lease liability, any initial direct costs incurred by the Company, an estimate of any costs to dismantle and remove the asset at the end of the lease (if any), and any lease payments made in advance of the lease commencement date (net of any incentives received).

Subsequent measurement
The Company depreciates the right-of-use assets on a straight-line basis from the lease commencement date to the earlier of the end of the useful life of the right-of-use asset or the end of the lease term. The Company also assesses the right-of-use asset for impairment when such indicators exist.

ii) Lease liabilities
At lease commencement date, the Company measures the lease liability at the present value of the lease payments unpaid at that date, discounted using the interest rate implicit in the lease if that rate is readily available or the Company's incremental borrowing rate. Lease payments included in the measurement of the lease liability are made up of fixed payments (including in substance fixed payments) and variable payments based on an index or rate. Subsequent to initial measurement, the liability will be reduced for payments made and increased for interest. It is re-measured to reflect any reassessment or modification, or if there are changes in in-substance fixed payments. When the lease liability is re-measured, the corresponding adjustment is reflected in the right-of-use asset.

iii) Short-term leases
The Company has elected to account for short-term leases using the practical expedients. Instead of recognising a right-of-use asset and lease liability, the payments in relation to these are recognised as an expense in statement of profit and loss on a straight-line basis over the lease term.

e) **Inventories**

Inventories are valued at the lower of cost and net realisable value. Cost is determined on first in, first out basis, in respect of raw materials and stores and spares. Cost includes freight, taxes and duties and excludes duties and taxes that are recoverable subsequently from tax authorities.

In respect of finished goods and work in progress, cost includes all direct costs and applicable production overheads in bringing the goods to their present location and condition.

Net realisable value is the estimated selling price in the ordinary course of business, less estimated costs of completion and the estimated costs necessary to make the sale.

Provision for slow moving/non-moving inventory is estimated and made by the management, wherever necessary, based on the past experience of the Company.

f) **Financial instruments**

A Financial instrument is any contract that gives rise to a financial asset of one entity and a financial liability or equity instrument of another entity.

Initial recognition and measurement
Financial assets and financial liabilities are recognised when the Company becomes a party to the contractual provisions of the financial instrument and are measured initially at fair value adjusted for transaction costs. Subsequent measurement of financial assets and financial liabilities is described below.

Non-derivative financial assets

Subsequent measurement
Financial assets carried at amortised cost - A 'financial asset' is measured at the amortised cost if both the following conditions are met:

- The asset is held within a business model whose objective is to hold assets for collecting contractual cash flows, and
- Contractual terms of the asset give rise on specified dates to cash flows that are solely payments of principal and interest (SPPI) on the principal amount outstanding.

After initial measurement, such financial assets are subsequently measured at amortised cost using the effective interest rate (EIR) method.

De-recognition of financial assets
A financial asset is de-recognised when the contractual rights to receive cash flows from the asset have expired or the Company has transferred its rights to receive cash flows from the asset.

Non-derivative financial liabilities

Subsequent measurement
Subsequent to initial recognition, all non-derivative financial liabilities are measured at amortised cost using the effective interest method.

De-recognition of financial liabilities
A financial liability is de-recognised when the obligation under the liability is discharged or cancelled or expires. When an existing financial liability is replaced by another from the same lender on substantially different terms, or the terms of an existing liability are substantially modified, such an exchange or modification is treated as the de-recognition of the original liability and the recognition of a new liability. The difference in the respective carrying amounts is recognised in the statement of profit and loss.

Offsetting of financial instruments

Financial assets and financial liabilities are offset and the net amount is reported in the balance sheet if there is a currently enforceable legal right to offset the recognised amounts and there is an intention to settle on a net basis, to realise the assets and settle the liabilities simultaneously.

Impairment of financial assets

In accordance with Ind AS 109, the Company applies expected credit loss ('ECL') model for measurement and recognition of impairment loss for financial assets. ECL is provided for when there has been a significant increase in credit risk and then, factors historical trends and forward-looking information. An impairment loss is recognised either based on the 12 months' probability of default or lifetime probability of default.

Trade receivables

In respect of trade receivables, the Company applies the simplified approach of Ind AS 109, which requires measurement of loss allowance at an amount equal to lifetime expected credit losses. Lifetime expected credit losses are the expected credit losses that result from all possible default events over the expected life of such receivables.

Other financial assets
In respect of its other financial assets, the Company assesses if the credit risk on those financial assets has increased significantly since initial recognition. If the credit risk has not increased significantly since initial recognition, the Company measures the loss allowance at an amount equal to 12-month expected credit losses, else at an amount equal to the lifetime expected credit losses.

g) Provisions, contingent assets and contingent liabilities

Provisions are recognized only when there is a present obligation, as a result of past events, and when a reliable estimate of the amount of obligation can be made at the reporting date. These estimates are reviewed at each reporting date and adjusted to reflect the current best estimates. Provisions are discounted to their present values, where the time value of money is material.

Contingent liability is disclosed for:
- Possible obligations which will be confirmed only by future events not wholly within the control of the Company or
- Present obligations arising from past events where it is not probable that an outflow of resources will be required to settle the obligation or a reliable estimate of the amount of the obligation cannot be made.

Contingent assets are neither recognised nor disclosed except when realisation of income is virtually certain, related asset is disclosed.

h) Revenue recognition

Revenue is measured at the fair value of the consideration received or receivable. Revenue is recognized upon transfer of control of promised goods or services to customers in an amount that reflects the consideration the Company expects to receive in exchange for those services. Revenue is measured net of rebates, discounts and taxes. The Company applies the revenue recognition criteria to each component of the revenue transaction as set out below.

Revenue from sale of goods is recognized when goods are transferred for a price, all significant risk and rewards of the ownership have been transferred to the customer, no effective control is retained with respect to goods transferred to a degree usually associated with ownership, no significant uncertainty exists regarding the amount of consideration and collectability of amount is reasonably assured. The Company considers the terms of the contract and its customary business practices to determine the transaction price. The transaction price is the amount of consideration to which the Company expects to be entitled in exchange for the goods excluding amounts collected on behalf of third parties (for example, indirect taxes).

A receivable is recognised by the Company when the control is transferred as this is the case of point in time recognition where consideration is unconditional because only the passage of time is required. When either party to a contract has performed, an entity shall present the contract in the balance sheet as a contract asset or a contract liability, depending on the relationship between the entity's performance and the payment.

Other operating revenue
Revenue from other allied activities is recognised once there is certainty regarding the amount of consideration and collectability of amount is reasonably assured.

Interest income
Interest income is recognised on time proportion basis considering the amount outstanding and rate applicable. For all financial assets measured at amortised cost, interest income is recorded using the effective interest rate (EIR) i.e. the rate that exactly discounts estimated future cash receipts through the expected life of the financial asset to the net carrying amount of the financial assets.

i) Employee benefits

Short-term employee benefits
All employee benefits payable/available within twelve months of rendering the services are classified as short term employee benefits. Benefits such as salaries, wages, bonus, etc. are recognised in the statement of profit and loss in the period in which the employee renders the related service.

j) Finance cost

Borrowing costs are recognised as expenses in the period in which they are incurred except for borrowing for acquisition of qualifying assets, which are capitalised upto the date, the asset is ready for its intended use. A qualifying asset is one that necessarily takes substantial period of time to get ready for intended use.

k) Taxation

Tax expense recognized in statement of profit and loss comprises the sum of deferred tax and current tax except to the extent it recognized in other comprehensive income or directly in equity.

Current tax comprises the tax payable on taxable income for the year and any adjustment to the tax payable or receivable in respect of previous years. Current tax is computed in accordance with relevant tax regulations. The amount of current tax payable or receivable is the best estimate of the tax amount expected to be paid or received after considering uncertainty related to income taxes, if any. Current tax relating to items recognised outside profit or loss is recognised outside profit or loss (either in other comprehensive income or in equity).

Current tax assets and liabilities are offset only if there is a legally enforceable right to set off the recognised amounts, and it is intended to realise the asset and settle the liability on a net basis or simultaneously.

Deferred tax is recognised in respect of temporary differences between carrying amount of assets and liabilities for financial reporting purposes and corresponding amount used for taxation purposes. Deferred tax assets are recognised on unused tax loss, unused tax credits and deductible temporary differences to the extent it is probable that the future taxable profits will be available against which they can be used. This is assessed based on the Company's forecast of future operating results, adjusted for significant non-taxable income and expenses and specific limits on the use of any unused tax loss. Unrecognised deferred tax assets are re-assessed at each reporting date and are recognised to the extent that it has become probable that future taxable profits will allow the deferred tax asset to be recovered.

Deferred tax assets and liabilities are measured at the tax rates that are expected to apply in the year when the asset is realised or the liability is settled, based on tax rates (and tax laws) that have been enacted or substantively enacted at the reporting date. The measurement of deferred tax reflects the tax consequences that would follow from the manner in which the Company expects, at the reporting date to recover or settle the carrying amount of its assets and liabilities.

Deferred tax assets and liabilities are offset only if there is a legally enforceable right to set off the recognised amounts, and it is intended to realise the asset and settle the liability on a net basis or simultaneously. Deferred tax relating to items recognised outside statement of profit and loss is recognised outside statement of profit or loss (either in other comprehensive income or in equity).

l) Cash and cash equivalents

Cash and cash equivalents include cash in hand and deposits with the banks which are subject to an insignificant risk of changes in value.

m) Earnings per share

Basic earnings per share is calculated by dividing the net profit or loss for the period attributable to equity shareholders (after deducting attributable taxes) by the weighted average number of equity shares outstanding during the period. The weighted average number of equity shares outstanding during the period is adjusted for events including a bonus issue.

For the purpose of calculating diluted earnings per share, the net profit or loss for the period attributable to equity shareholders and the weighted average number of shares outstanding during the period are adjusted for the effects of all dilutive potential equity shares.

Non-current investments (at cost):				
Investment in equity shares of wholly owned subsidiary: (Unquoted)				
25,000 (31 March 2023: 25,000) fully paid-up equity shares of face value Euro 1 each in Translumina France	0.25	0.25	21.96	21.96
26,000 (31 March 2023: Nil) fully paid-up equity shares of face value Euro 1 each in Lamed Vertriebsgesellschaft	155.00	-	13,688.05	-
100 (31 March 2023: Nil) fully paid-up equity shares of face value Euro 1 each in Blue Medical Devices BV	49.20	-	4,454.57	-
	204.45	**0.25**	**18,164.58**	**21.96**

Investment in subsidiary is stated at cost using principles of Ind AS 27 'Separate Financial Statements'.

During the current year the Company has acquired 100% stake of Lamed Vertriebsgesellschaft mbH, Germany and Blue Medical Devices B.V.,Netherlands effective from 5 June 2023 and 16 June 2023 for a total purchase consideration of Euro 155 lakhs and Euro 49.20 lakhs (including contingent consideration of 1.70 lakhs) respectively.

These investments were tested for impairment in accordance with Ind AS 36 "impairment of assets" concluding no impairment to the carrying values.The recoverable amount of investment in Translumina France is determined at net asset value due to closure of business operations.

Following key assumptions were considered while performing impairment testing of investment:

Assumptions	Approach used to determine the assumption
Revenue growth rate	Annual growth rate over the forecast period based on past performance and management's future expectations.
Discount rate	Weighted Average Cost of Capital (WACC) computed as per Capital Asset Pricing Model (CAPM) model.
Terminal growth rate	This reflects the estimated sustainable long-term growth rate of the respective company which is in line with the long-term average growth rates of the respective industry and country in which the entity operates.
Number of years for which cash flows were considered	The period of projection is based on the budgets/ forecasts and cover a maximum period of five years, unless a longer period can be justified. Considering CGUs in different geographies where more than 5 years would be required to reach a stable stage, the management has considered more than 5 years as explicit projection period based on its past experience.

Summary of key assumptions used by the management:

Assumption*	LAMED Vertriebsgesellschaft	Blue Medical Devices B.V.
Revenue growth rate	5.25%	14.00%-16.00%
Discount rate	12.34%	20.59%
Terminal growth rate	2.50%	2.50%
Number of years for which cash flows were considered	1 year	5 years

*Similar information is not required for 31 March 2023 as LAMED Vertriebsgesellschaft and Blue Medical Devices B.V. is acquired during the year ended 31 March 2024.

Note- 37
Financial instruments risk
Financial risk management objectives and policies
The Company is exposed to various risks in relation to financial instruments. The main types of financial risks are market risk, credit risk and liquidity risk.

The management of the Company monitors and manages the financial risks relating to the operations of the Company on a continuous basis. The Company does not engage in the trading of financial assets for speculative purposes. The most significant financial risks to which the Company is exposed are described below:

I) Market risk
Market risk is the risk that the fair value of future cash flows of a financial instrument will fluctuate because of changes in market prices. The Company is exposed to market risk through its use of financial instruments and specifically to foreign currency risk and interest rate risk which result from its operating, investing and financing activities.

i) Foreign currency risk

Foreign currency risk is the risk that the fair value or future cash flows of an exposure will fluctuate because of changes in foreign exchange rates. The functional currency of the Company is Euro. Most of the Company's transactions are carried out in Euro. Exposures to currency exchange rates mainly arise from the Company's overseas purchases, which is primarily denominated in SG Dollars ('SGD').

The Company has limited exposure to foreign currency risk and outstanding foreign currency exposures are not being hedged against adverse currency fluctuation.

Particulars	Currency	Amount in foreign currency	Amount in foreign currency
		31 March 2024	31 March 2023
Payables			
Trade payables	SGD	0.11	0.07

The following table illustrates the foreign currency sensitivity of profit and equity with regards to the Company's financial assets and financial liabilities considering 'all other things being equal' and ignoring the impact of taxation. It assumes a +/- 1% change of the Euro/USD exchange rate for the year ended at 31 March 2024. These are the sensitivity rates used when reporting foreign currency exposures internally to the key management personnel and represents management's assessment of the reasonably possible changes in the foreign exchange rates. The sensitivity analysis includes only outstanding foreign currency denominated monetary items at end of each period reported upon. A positive number indicates an increase in profit or equity and vice-versa.

If the Euro had strengthened/ weakend against the SGD by 1%, the following would have been the impact :

Particulars	Exchange rate change	Profit/ (loss) for the period		Equity	
		Increase	Decrease	Increase	Decrease
SGD	1.00%	0.00	(0.00)	0.00	(0.00)

ii) Interest rate risk

Interest rate risk is the risk that the fair value or future cash flows of a financial instrument will fluctuate because of changes in market interest rates. The Company is exposed to changes in market interest rates as some borrowings and loans advanced are at variable interest rates.

The following table illustrates the sensitivity of profit and equity to a reasonably possible change in interest rates of +/- 1%. These changes are considered to be reasonably possible based on management's assessment. The calculations are based on a change in the average market interest rate for each period, and the financial instruments held at each reporting date that are sensitive to changes in interest rates. All other variables are held constant.

31 March 2024	Interest rate change	Profit/ (loss) for the period		Equity	
		Increase	Decrease	Increase	Decrease
Borrowings	1.00%	1.59	(1.59)	1.59	(1.59)
Loans and Advances	1.00%	0.09	(0.09)	0.09	(0.09)

31 March 2023	Interest rate change	Profit/ (loss) for the period		Equity	
		Increase	Decrease	Increase	Decrease
Borrowings	1.00%	0.52	(0.52)	0.52	(0.52)

II) Credit risk
Credit risk is the risk that a counterparty fails to discharge an obligation to the Company. The Company is operating through a network of distributors and other distribution partners based at different locations. The Company is exposed to this risk for various financial instruments, for example receivables from customers. The Company's maximum exposure to credit risk is limited to the carrying amount of financial assets recognised at end of each reporting period, as summarised below:

Financial instruments by category	Note	31 March 2024	31 March 2023
		Amortised cost	Amortised cost
Financial assets			
Trade receivables	10	15.42	14.98
Cash and cash equivalents	11	2.11	0.87
Other Financial Assets	12	9.18	0.03
Investments	7	204.45	0.25
Total financial assets		**231.16**	**16.13**

The Company continuously monitors receivables and defaults of customers and other counterparties, and incorporates this information into its credit risk controls.

The credit risk for cash and cash equivalents is considered negligible, since the counterparties are reputable banks.

J C BAMBA & CO Chartered Accountants

III) Liquidity risk

Liquidity risk is the risk that the Company will encounter difficulty in meeting the obligations associated with its financial liabilities that are settled by delivering cash or another financial asset. The Company's approach to managing liquidity is to ensure as far as possible, that it will have sufficient liquidity to meet its liabilities when they are due.

As at 31 March 2024, the Company's financial liabilities have contractual maturities as summarised below:

31 March 2024	Less than 1 year	1 - 2 years	2-3 years	More than 3 years	Total
Borrowings	25.28	7.12	7.12	119.82	159.34
Trade payables	19.84	-	-	-	19.84
Lease liabilities (current and non current)	2.14	2.12	1.59	-	5.86
Other financial liabilities (current and non current)	7.55	3.65	-	-	11.20
Total	**54.81**	**12.89**	**8.71**	**119.82**	**196.24**

31 March 2023	Less than 1 year	1 - 2 years	2-3 years	More than 3 years	Total
Borrowings	1.08	1.08	50.16	-	52.32
Trade payables	16.86	1.72	0.42	0.02	19.02
Lease liabilities (current and non current)	2.11	2.14	2.12	1.59	7.97
Other financial liabilities	1.47	2.89		-	4.36
Total	**21.52**	**7.83**	**52.70**	**1.61**	**83.67**

Note- 38
Fair value measurements
Financial instuments by categories
The carrying value and fair values of financial instruments by categories are as follows:

Financial instruments by category	Note	31 March 2024	31 March 2023
		Amortised cost	Amortised cost
Financial assets			
Trade receivables	10	15.42	14.98
Cash and cash equivalents	11	2.11	0.87
Other financial assets	12	9.18	0.03
Investments	7	204.45	0.25
Total financial assets		**231.16**	**16.13**
Financial liabilities			
Lease liabilities	17	5.01	6.64
Borrowings	16	159.34	52.32
Trade payables	20	19.84	19.02
Other financial liabilities	18	11.20	4.36
Total financial liabilities		**195.39**	**82.34**

Cash and cash equivalents, other financial assets, investment, trade receivables, trade payables, lease liability, borrowings and other financial liabilities approximate their carrying amounts largely due to the short-term maturities of these instruments. The fair value of the financial assets and liabilities is the amount at which the instrument could be exchanged in a current transaction between willing parties, other than in a forced or liquidation sale. There are no financial assets and liabilities which are measured at fair value through profit or loss or fair value through other comprehensive income.

Note - 40

Lease related disclosures

The Company has leases for cars and office premises. With the exception of short-term lease underlying assets, each lease is reflected on the balance sheet as a right-of-use asset and a lease liability as a borrowings. Variable lease payments which do not depend on an index or a rate are excluded from the initial measurement of the lease liabilities and right of use assets. The Company classifies its right-of-use assets in a consistent manner to its property, plant and equipment.

Each lease generally imposes a restriction that, unless there is a contractual right for the Company to sublease the asset to another party, the right-of-use asset can only be used by the Company. Some leases contain an option to extend the lease for a further term. The Company is prohibited from selling or pledging the underlying leased assets as security. For leases over premises, the Company must keep those properties in a good state of repair and return the properties in their original condition at the end of the lease. Further, the Company is required to pay maintenance fees in accordance with the lease contracts.

A Set out below are the carrying amounts of lease liabilities and the movements during the year:

Particulars	EURO For the Year ended 31 March 2024	EURO For the Year ended 31 March 2023	INR For the Year ended 31 March 2024	INR For the Year ended 31 March 2023
Opening balance	6.64	5.99	593.33	505.87
Additions: modification of leases	(0.10)	1.79	(8.65)	149.86
Accretion of interest	0.56	0.57	50.30	47.37
Payments	(2.09)	(1.71)	(188.04)	(142.86)
Exchange Difference			3.42	33.07
Closing balance	**5.01**	**6.64**	**450.37**	**593.32**

B Lease payments not included in measurement of lease liability

The expense relating to payments not included in the measurement of the lease liability is as follows:

Particulars	Year ended 31 March 2024	Year ended 31 March 2023	INR Year ended 31 March 2024	INR Year ended 31 March 2023
Short-term leases	1.67	2.03	149.97	169.96
Total	**1.67**	**2.03**	**149.97**	**169.96**

C Total cash outflow for long term and short term leases amounts to Euro 3.76 lakhs (Previous year: Euro 3.73 lakhs)

D Maturity of lease liabilities

The lease liabilities are secured by the related underlying assets. Future minimum lease payments were as follows:

31 March 2024	Minimum lease payments due Within 1 year	1-2 years	2-3 years	More than 3 years	Total
Lease payments	2.14	2.12	1.59	-	5.85
